## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-27, drawn to an apparatus for storing and dispensing a sorbate gas.

Group II, claim(s) 28-35, drawn to an apparatus for storing, dispensing, and regenerating a sorbate gas.

Group III, claim(s) 36-49, drawn to an apparatus for storing and dispensing a sorbate gas with a solid-phase physical sorbent medium.

Group IV, claim(s) 50-72, drawn to a method for generating hydrogen gas by the decomposition of a sorbate gas.

Group V, claim(s) 73-83, drawn to a method for generating hydrogen gas and flowing the hydrogen gas.

2. The inventions listed as Groups I, II, III, IV, and V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature among all Groups is a storage and dispensing vessel capable of containing a sorbate gas in a physically absorbed state and a decomposition chamber. This common technical feature is known in the art and so is not a special technical feature. Tom (US 5,518,528) discloses these features (column 5, lines 20-40).

3. A telephone call was made to Steven Hultquist on 6/26/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to IMRAN AKRAM whose telephone number is (571)270-3241. The examiner can normally be reached on 10-7 Monday through Friday.
